A Empresa

A marca Lido começou a ser fabricada em 1958 no estado de São Paulo, no bairro da Barra Funda. O seu fundador, o senhor Lido Agostini, foi um Italiano idealista e apaixonado pelo seu ofício, imigrante do período pós-guerra, que já em seu país de origem fabricava instrumentos cirúrgicos e decidiu iniciar seu negócio em terras brasileiras, visando um grande potencial de crescimento em nosso país. Foi a pioneira na especialidade de neurocirurgia no Brasil, tendo participado dos primeiros congressos nacionais, apoiando os neurocirurgiões brasileiros a desenvolverem suas técnicas no que fosse necessário.

Em 1993, com o crescimento da globalização, foi tomada a decisão de não se fabricar mais os instrumentais Lido no Brasil, pois para ter qualidade superior já que a empresa estava em fase de modernização, os custos de produção ficariam acima das expectativas do mercado nacional. A empresa buscou parcerias internacionais confiáveis e duradouras para manter o seu patrimônio: a qualidade.
